THE CONSISTENT CHOICE FOR BREATHTAKING DYNAMICS.

In 2012, BMW returned to the DTM German touring car series for the first time since 1992, marking the comeback with a sensational hat-trick. Bruno Spengler took the driver's title and BMW scored top positions in the manufacturers' championship and the team rankings – success due, not least, to outstanding motor sport know-how.

With BMW M Performance Parts – the result of years of BMW racing expertise and developed with BMW M GmbH – you have the opportunity to get a taste of this success. Each component goes through an intense manufacturing and development process, so uncompromising sportiness is consistently realised every time – right down to the smallest detail. BMW M Performance Parts give your BMW individual racing character and, at the same time, even greater dynamics. They are the clear choice for premium quality and sporty innovation, whether it's for aerodynamics, the chassis, the drivetrain or the cockpit. Give your BMW a breathtaking racing feel.

BMW M3. BMW X5 M AND BMW X6 M.

1929 The BMW motor sport era begins. First victory for BMW with the BMW 3/15 at the prestigious Alpine Rally.

1984 Volker Strycek secures the first DTM victory for BMW with the BMW 635 CSI.

1989 Roberto Ravaglia becomes the Touring Car world champion in the BMW M3.

2004/2005 BMW triumphs at the 24 Hours Nürburgring in two consecutive years with a double victory in the BMW M3 GTR.

2010 Overall victory in the BMW M3 GT2 at the 24 Hours Nürburgring.

2012 Return to the DTM with the legendary BMW M3 DTM (20 years after their departure in 1992).

09/2012 A sensational hat-trick marks the perfect season come-back. First place for driver, team and manufacturer with the BMW M3 DTM.

PURE MOTORSPORT CHARACTER. IT'S IN THE BLOOD.

The history of BMW motorsport is shaped by great racing cars. In 1929, the 3/15 took the first victory for BMW at the prestigious Alpine Rally, completing every one of the five daily stages from Munich to Lake Como in record time. In the following decades, legendary racing cars including the BMW 328, BMW 3.0 CSL, BMW M1 and the BMW M3 defended their places among the motorsport elite, celebrating countless victories and major titles. Among them, the first overall victory in the history of the DTM German touring car series in 1984, a WTCC hat-trick from 2005 to 2007 and the spectacular 2010 victory at the Nürburgring 24 Hours race. And in 2012, when BMW returned to the DTM for the first time since 1992, the occasion was marked with yet another hat-trick. Bruno Spengler took the driver's title and BMW scored top positions in the manufacturers' championship and the team rankings.

The power of M, evidently, continues apace in the world of motor racing. As the driver of a BMW M model, you know exactly what that means when it comes to total performance and maximum sportiness. There is also, of course, uncompromising practicality. All features embodied by BMW M Performance Parts.

With this product, you can optimise cleaning performance, too. The foam cleaner removes stubborn dirt and protects material. A special active ingredient also freshens up colours and permanently removes unpleasant odours. Suitable for cleaning both Alcantara and upholstery as well as carpet and roofliner.
