

Sheer
Driving Pleasure

ORIGINAL BMW ACCESSORIES.

BMW 3 SERIES, BMW 4 SERIES,
BMW X3, BMW X4 AND BMW Z4

HOW DO TRENDSETTERS TANK UP? THEY CHARGE.

Charged with the future: The BMW i Wallbox makes charging at home a technological pleasure. It significantly reduces charging time, can pre-heat or cool the car and can connect to a photovoltaic system.

You can learn more about the innovative BMW i accessories on p. 19.

GREATER VARIETY FOR ANY SITUATION.

All BMW drivers enjoy driving pleasure as standard. Original BMW Accessories exists to meet their special desires. We offer a broad selection of individual additions and extras that are perfectly suited to your vehicle in quality, design and performance, offering you maximum added value – whatever you have in mind.

On the pages that follow, you'll find information and many images divided into four thematic areas, in order to help you make the right decision. Enjoy your browsing!

Selected BMW Accessories can be experienced online in sound and images – simply download the BMW brochure app for your device.

Depending on your mobile phone contract, costs may be incurred.

A GREATER SELECTION FOR YOUR BIG APPEARANCE.

From fine details of aerodynamics to stylish light alloy wheels – give your BMW an individual appearance. Since wheels have an especially large influence on the vehicle's appearance, we offer a wide range of Original BMW complete wheel sets in various sizes. The mounted tyres are perfectly suited to the driving dynamics of your BMW, and with BMW tyre insurance, they have a 36-month guarantee after purchase from your BMW partner. Discover further details at:

PERFORMANCE PARTS

M PERFORMANCE PARTS

BMW M Performance Parts is the name given to an exclusive accessories programme that allows you to make your BMW even more sporty. Retrofit components in the drivetrain, suspension, aerodynamics and cockpit categories are perfectly adapted to your vehicle, enabling you to individualise its dynamic character just as you wish.

1 Tailpipe trim, chrome or carbon

Strengthen the individual character of your BMW. Thermally decoupled and inscribed with the BMW M logo. Only in conjunction with BMW M Performance silencer system or the BMW M Performance Power & Sound Kit.

2 Front grille, black

The black kidney grille, made of tear and dent-resistant plastic, is an impressive sign of the car's individuality. Black slats and a high-gloss Black frame emphasise the character of the BMW and turn the kidney grille into an optical highlight.

2 Exterior door mirror covers, carbon

Meticulously hand-crafted in 100% carbon: the striking exterior door mirror covers highlight the technologically advanced character of the vehicle. Their dynamic design ensures a particularly high-quality look plus an individual, sporty accent.

3 20" Double-spoke style 624 M (3 Series/4 Series)

The premium 20" light alloy wheels are forged and polished (3) or forged, in bi-colour Black matt, milled and feature the BMW M logo.

4 20" Double-spoke style 405 M (3 Series/4 Series)

The premium-quality 20" light alloy wheels are forged in bi-colour Orbit Grey, gloss-lathed on the visible sides and featuring the BMW M logo.

5 20" Double-spoke style 599 M (X3/X4)¹

The high-quality 20" light alloy wheels are forged, bi-colour matt black, gloss-lathed on the visible side and feature the "M" logo.

6 20" Double-spoke style 310 M (X3/X4)¹

The premium-quality 20" light alloy wheels are bi-colour Orbit Grey, gloss-lathed on the visible side and feature the BMW M logo.

¹ Available for X3 models produced up to 07/2017, as well as X4 models produced up to 03/2018.

COMPLETE WHEELS BMW 3 Series/4 Series

1 M Aerodynamics package

The M Aerodynamics package visually emphasises the vehicle's athleticism. This includes a front apron with larger air inlets, unique side skirts and a rear apron with a diffuser insert in Dark Shadow metallic.

2 20" Star-spoke style 660

The premium-quality 20" light alloy wheels are forged in bi-colour Orbit Grey, gloss-lathed on the visible side. Their two-colour look lends the vehicle a particularly athletic note.

3 19" Double-spoke style 598 M (3 Series GT)

The premium-quality 19" light alloy wheels are bi-colour Orbit Grey, gloss-lathed on the visible side and feature the BMW M logo.

4 20" Double-spoke style 361

The premium-quality 20" light alloy wheel is bi-colour black with a red border (4.1) or Ferric Grey, gloss-lathed on the visible side (4.2). It lends the vehicle an athletic note.

5 18" Multi-spoke style 416

The two-colour design of the high-quality 18" light alloy wheel lends the vehicle a strong athletic look.

6 18" M Performance Double-spoke style 405 M

The premium-quality 18" light alloy wheels are forged, Black matt.

7 20" Cross-spoke style 404

The high-quality 20" light alloy wheels are bi-colour black, gloss-lathed on the visible side, and feature corrosion protection.

8 Mud flaps

The sturdy black mud flaps protect the vehicle, as well as the one travelling behind it, from dirt and loose gravel. They are optimally coordinated to the design of the vehicle, impressively emphasising the striking appearance of the BMW, and are available as a set for the rear axle or front axle.

Locking wheel bolts

The reliable wheel bolt locking system features four wheel bolt locks with special BMW encoding. The bolts can only be opened with the special tool included in the package, thereby offering the ultimate protection against wheel theft.

COMPLETE WHEELS BMW X3/X4¹

1 21" M Performance wheels Y-spoke style 701 M

21" BMW M Performance light alloy wheels, forged, in bi-colour Black matt and gloss-lathed on the visible side. Complete wheel set with run-flat mixed tyres.

2 20" Y-spoke style 695

The premium-quality 20" light alloy wheels are in matt Black and feature spokes arranged on two levels.

3 Mud flaps

The sturdy black mud flaps protect the vehicle, as well as the one travelling behind it, from dirt and loose gravel. They emphasise the car's strikingly powerful appearance, and they imply what the car is capable of when it gets off the road. Available as a set for the rear axle or front axle.

Locking wheel bolts

The reliable wheel bolt locking system features four wheel bolt locks with special BMW encoding. The bolts can only be opened with the special tool included in the package, thereby offering the ultimate protection against wheel theft.

4 Valve caps

The valve caps are available with the BMW or the M logo, and they lend your wheels an individual character.

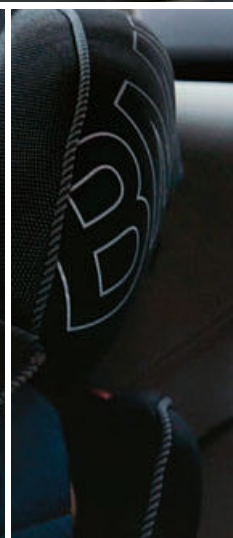

5 Non-rotating hubcap²

The non-rotating hubcap consists of the BMW logo, which doesn't turn with the wheel but rather remains upright. The hubcap can be mounted on all BMW light alloy wheels with a pitch circle diameter of 112 mm.

¹ Available for X3 models produced from 08/2017, as well as X4 models produced from 04/2018.

² Available from summer of 2018.

MORE SPACE IN THE INTERIOR.

If you are often on the road or take long journeys, intelligent solutions help to make the time spent in your BMW even more relaxing – turning the interior into a cosy haven, a mobile office or a practical travel companion.

TRAVEL & COMFORT SYSTEM

The Travel & Comfort System unites a variety of different holders and attachment solutions in one system, achieving an even higher degree of travel comfort inside the vehicle. The foundation of the system is the basic carrier, which is easily mounted between the headrest pillars, and just as easily removed. The following system attachments can be quickly and easily attached to it via a plug-in coupling.

1 Universal holder for tablets with BMW safety case

The practical Universal holder is adjustable and attaches to the base carrier from the Travel & Comfort system. It securely holds a wide range of Apple and Samsung tablets from 7" to 11" with BMW safety case. Its 360° rotating frame allows it to be tilted and fixed in the desired position.

2 Clothes hanger

This allows you to hang items of clothing on the rear side of the backrest. The removable hook also makes it ideal for use outside the vehicle, while travelling for example.

3 Universal hook

For stowing pieces of clothing or light bags on the rear side of the backrest.

4 Folding table

With an attractive BMW design, adjustable for height and angle and featuring an additional integrated cupholder.

5 Action camera holder

For secure hold of action cameras (recommended: GoPro or Nikon KeyMission 360). Once snapped into the holder, the camera can be rotated through 360° and operated with the Action Cam app.

Cinematic impressions of the Travel & Comfort System's versatility can be found in the BMW Catalogue app.

1 Sunblind

The sunblind for the rear side windows can even be used when the window is open. Thanks to its perfectly fitting design, it is particularly useful for protecting children from direct sunlight. It also helps to reduce the temperature in the vehicle.

2 Backrest bag

Mottled black/grey bag with a wealth of storage space for a variety of items. The bag is attached to the front seat and can be folded up to be carried.

3 Rear storage bag

The black bag is attached to the centre safety belt and can also act as an armrest in the rear. It offers a great deal of storage space, and two cupholders, and it can be comfortably carried with the integrated shoulder strap.

4 Group 0+ Baby Seat

Baby seat in black/Anthracite with patented air pads for children under approx. 13 kg (approx. 15 months old). The baby seat is mounted on the separately available ISOFIX base. The base, in turn, is attached to the vehicle's ISOFIX eyelets. Alternatively, the baby seat can be attached without the ISOFIX base using the seat belt.

5 Group 1 Junior Seat

Seat in black/Anthracite with patented air pads for children from approx. 12 months to 4 years old (approx. 9–18 kg). For secure mounting on the separately available ISOFIX base.

6 Group 2/3 Junior Seat

This seat in black/Anthracite "grows" with children from around 3 to 12 years of age (approx. 15–36 kg). With patented air pads for increased protection against impact to the head and ISOFIX connectors. The patented height and width adjustment can be operated with one hand and the seat can be folded away into the accompanying rucksack for easy transportation.

7 Backrest protector and child seat underlay

The child seat underlay protects the rear seat against grime and pressure marks in the upholstery from the child seat, while the backrest protector keeps the backrest from getting dirty and worn.

More information on the baby child seat's safety characteristics and mode of use can be found in the video in the BMW Catalogue app.

1

1 M Performance floor mats

With BMW M Performance lettering. The dynamic design suits the pedal covers perfectly. Dirt and water-resistant.

2 All-weather floor mats

The precisely fitted, durable and elegantly designed all-weather floor mats protect the footwells from damp and dirt. They are available for the front and rear footwells in Black (2.1), Black/Red, Black/Beige or Black with an additional metal inlay (2.2).

3 LED doorsill finishers

The LED door sill finishers always ensure a bright entrance with the bright white, backlit BMW designation. The elegant design and high-quality stainless steel look further accentuate the exclusive style. Thanks to an integrated battery and a magnetic switch, the illumination can be powered without cables.

2.2

2.1

3

4 M footrests

With premium-quality workmanship and a design that's perfectly suited to the pedal covers, the M footrests lend the footwell an athletic accent, giving it that racing feel.

5 Textile floor mats

These perfectly fitted textile floor mats for the front or rear footwells are available in Black, Black/Beige or Black/Red. They offer reliable protection from dirt and moisture and may feature an additional metal inlay or additional protection against wear and tear.

4

5

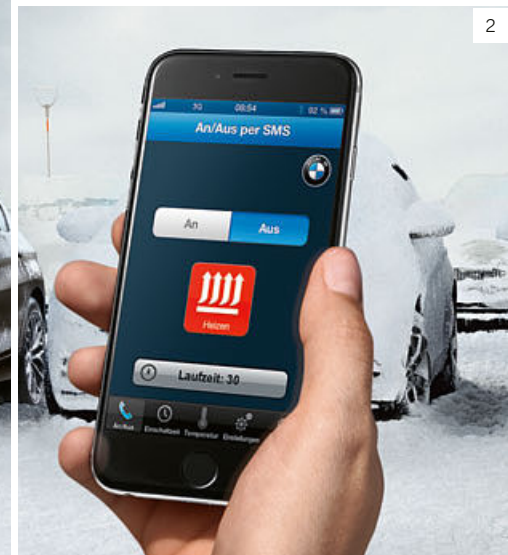

1 Key case

The key case, made from high-quality leather, is fixed to the key with a stylish metal clasp. It protects against scratches, dirt and moisture and prevents the driver from accidentally pressing the buttons. The various designs and colours of the key case suit any given BMW interior.

2 Auxiliary heater

The high-performance auxiliary heating ensures a comfortable temperature in the car's interior before the drive begins, and without icy or fogged windows. It can be controlled with the remote control T91 or T100, or (regardless of distance) via a compatible smartphone with the BMW Thermo Call app.

3 LED interior lighting package

Long-lasting lights with low energy consumption can replace the overhead, footwell and door lights or interior lights. They have the same lighting characteristics as typical bulbs, and come in modern-looking Daylight White.

4 LED luggage compartment lights

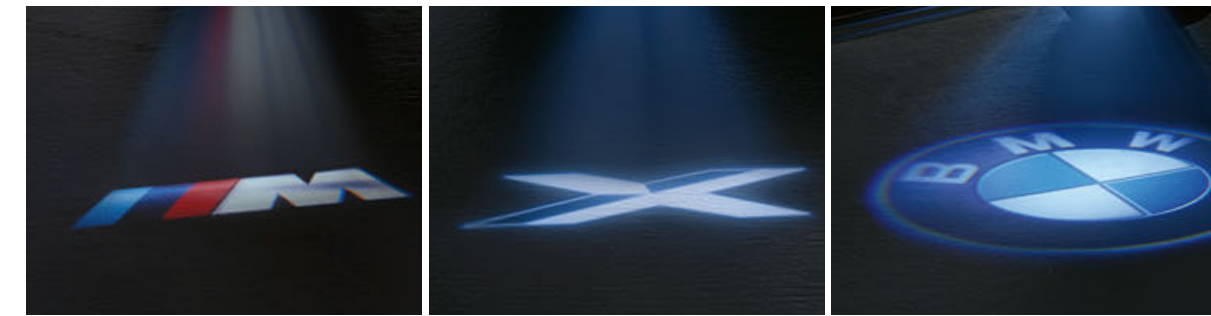

The easy-to-install BMW LED luggage compartment light produces illumination five times brighter than the standard lighting. In combination with the optimised lighting characteristics, it ensures that the luggage compartment is sufficiently illuminated, even in poorly-lit garages or car parks.

5 LED door projectors

When the doors are opened, an individually selected graphic is projected on the ground adjacent to the vehicle, for perfect illumination of the entry area.

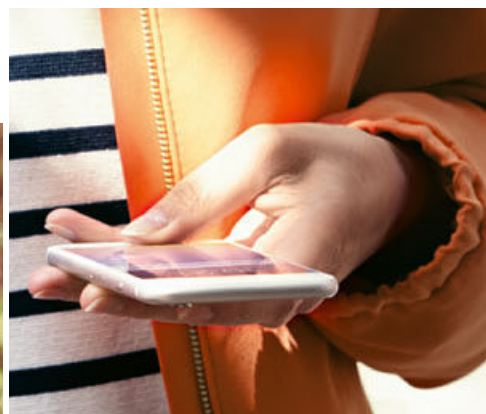

Information on BMW light products can be found in the animated film in the BMW Catalogue app.

MORE CONNECTIVITY, MORE POSSIBILITIES.

When you're well connected, it's good to look after your contacts. Which is where our accessories for digital communications and information come in. These tailor-made, optimally designed solutions allow you to stay connected with who and what matters most while on the move in your BMW. Features range from a Snap-in adapter for mobile phones right through to a vehicle monitoring system.

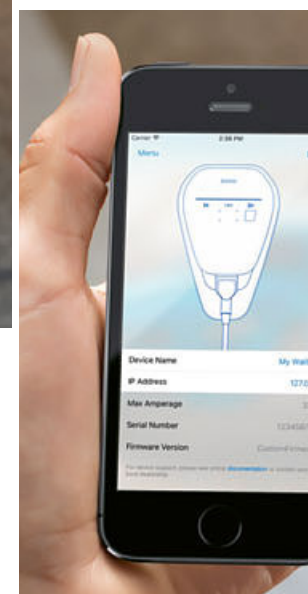

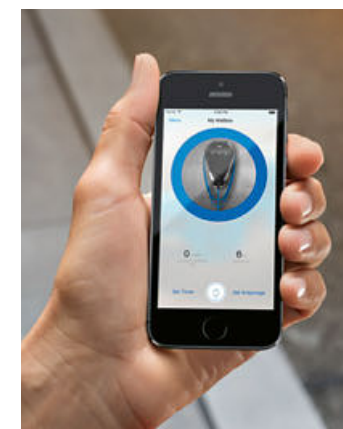

E-MOBILITY

With its intelligent products, BMW is a worldwide market leader in the field of electro-mobility. It is completely redefining the possibilities for individual mobility—from consistent sustainability throughout the entire value creation chain to intelligent mobility services to innovative charging solutions. Your BMW partner can provide you with further information on BMW i accessories such as the BMW iV app for remote control of your electric or hybrid vehicle.

1 Wallbox

For fast charging at home, the elegant Wallbox (22 kW/three-phase) comes in three models. All three can be flexibly and easily connected to your household electricity supply. The Wallbox Plus allows you to control access using a chip card reader; the Wallbox Connect offers many practical functions thanks to its WiFi connection and Digital Charging Service. Both models can be controlled by app.

2 Charging cable for public charging stations

The charging cable for public charging stations facilitates quick and simple charging at public charging stations that support mode 3. BMW electric vehicles and BMW hybrid vehicles can be charged up to eight times faster than with the supplied standard single-phase charging cable. This is possible throughout Europe thanks to the ECE-standard plug.

1 USB adapter/micro USB adapter

A compatible Apple iPod or iPhone device can be integrated and simultaneously charged using the USB adapter to access your digital music selection. The system can be operated via the iDrive Controller, the multifunction steering wheel or the radio. The micro-USB adaptor can perform the same task for other audio sources such as MP3 players or smartphones.

2 Dual USB charging device

The BMW dual USB charging adapter is simply inserted into the cigarette lighter. This allows two external mobile devices to be easily and conveniently charged at the same time. The high current enables devices, such as smartphones and MP3 players, to be charged very quickly.

3 Wireless charging case

The wireless charging case enables inductive charging of the Apple iPhone™ 5/5s upwards. The innovative mobile phone case is compatible with all Qi-certified charging devices and also protects the phone.

4 Electric cooler bag

The attractive electric cooler bag in Black and Anthracite has a 14-litre capacity. When plugged into the 12 V socket, the integrated cooling unit reduces the temperature inside the bag by as much as 18° C below that of the car interior.

5 Battery charger

The 5.0-amp battery charger can be used to easily and dependably recharge batteries to full capacity. The selection of the current and 8-level charging occur automatically. In addition, battery diagnosis and recharging of deeply discharged batteries are also possible.

6 Advanced Car Eye 2.0¹

The BMW Advanced Car Eye is a highly sensitive, full-HD camera that captures what's going on around the car, even at night. If the vehicle is shaken by an impact or in the event of unusual motion inside or outside the car, the camera automatically records the situation in order to document possible accidents or (attempted) break-ins.

7 Head-Up screen

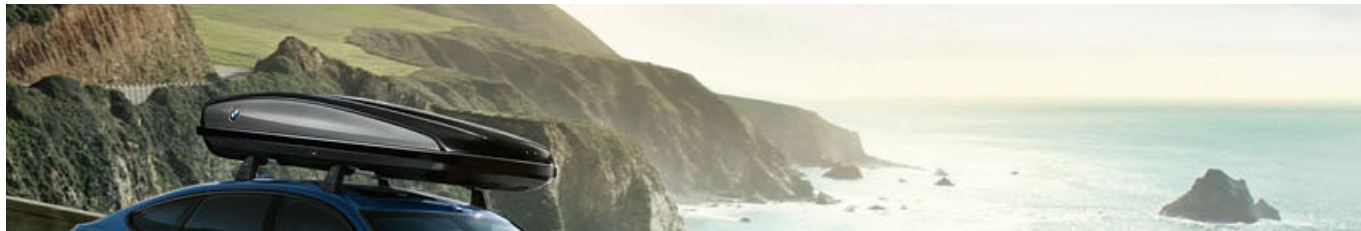

The BMW Head-Up Display projects relevant driving data and – in combination with a smartphone and the Garmin app – navigation information into the driver's direct field of vision, so they can always keep their eyes on the road. The transparent display is also optimally legible in direct sunlight.

8 Digital street map

A regular update of the digital street maps not only ensures that users enjoy a stress-free ride to their destination, but also that the navigation system is fully functional. Furthermore, always selecting the optimal route saves both time and fuel. Updates are available as either a single update or as a 2-year update subscription.

¹ The permissibility and application of the video recordings depends upon the laws and regulations of the country in which the camera is used. Please inform yourself of these laws before your journey. The user is responsible for the application of the camera system and for compliance with the stipulations of the country in which it is used.

MORE PATHS TO SECURE TRANSPORT

Do you want additional storage space when on holiday or for sports activities? Or would you like to securely stow a small piece of luggage? We offer you solutions tailored to your BMW so that you can transport any cargo safely, conveniently and (not least) elegantly – from the 520-litre capacity roof box to clever ways to keep those small items in order.

ROOF RACK SYSTEMS

The BMW roof rack and roof rails are optimised for all BMW roof rack mounts and roof boxes. They are easily installed and comply with the highest standards in quality and safety thanks to their sturdy construction and a lock system that protects against theft.

1 Roof box 320

For up to five pairs of skis and compatible with all BMW roof rack systems. 320 litre capacity, can be opened from both sides and has triple central locking on each side.

2 Roof box 420

420-litre capacity lockable roof box with double-sided opening system. In Black/Titanium Silver and suitable for all BMW roof rack systems.

3 Roof box 520

Black/Titanium Silver lockable roof box, accessible from both sides with a capacity of 520 litres, compatible with all BMW roof rack systems.

More information on installation and production of the BMW roof rack system can be found in the film in the BMW Catalogue app.

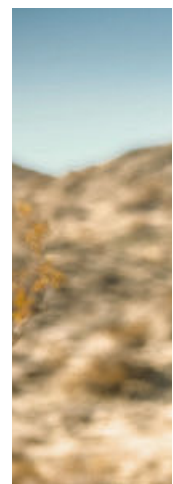

2

1

3

1 Touring bicycle holder, lockable

Extremely stable lockable touring bicycle holder for securely transporting a racing, touring or children's bicycle or mountain bike up to 22.5 kg.

2 Racing cycle holder, lockable

The racing cycle holder is suitable for all BMW roof rack systems. It allows for the secure transport of up to four racing bikes. To attach the bikes, the quick-release front wheels have to be removed. The separately available front-wheel holder makes it possible to fasten these wheels to the BMW roof rack system.

3 Ski and snowboard holder, lockable

The lockable ski and snowboard holder is compatible with all BMW roof rack systems and can be used in a variety of ways. Up to six pairs of skis, four pairs of skis with ski poles or two snowboards and two pairs of skis with poles can be securely transported on the car roof.

4

4 Luggage rack

The luggage rack provides versatile and useful storage space. It is made from highly durable, anodised aluminium, can be locked and is designed to exactly fit the BMW roof rack systems. The luggage rack features an attractive design and is easy to attach and use.

5 Surfboard holder

The holder's innovative fastening concept makes it easy to handle and to securely attach a surfboard and mast to any of the BMW roof rack systems.

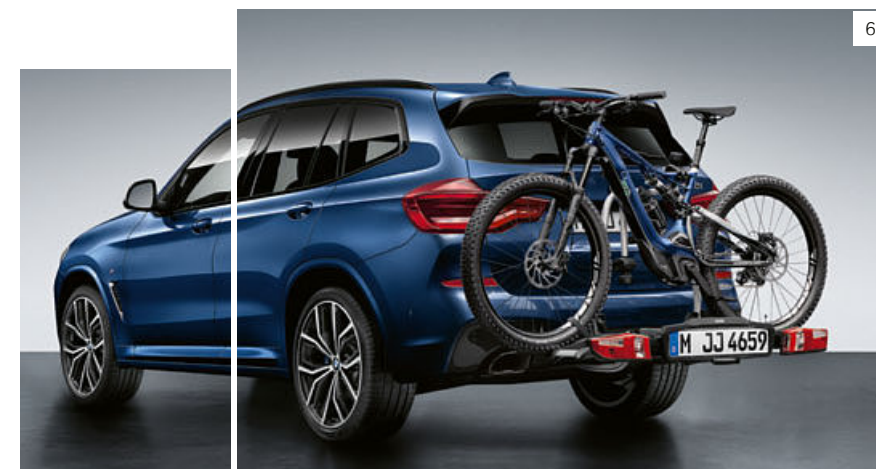

5

6 Trailer tow hitch with fully-electronically adjustable tow ball

Trailer tow hitches with electronically adjustable tow ball can be extended and retracted simply, with no need for further manual adjustment. The electric trailer tow hitches are also suitable for mounting a bike rack, and are stowed out of sight when retracted.

6 Rear bicycle rack Pro 2.0

The Pro 2.0 rear bicycle rack is lightweight yet sturdy and can carry up to 60 kg. Exceptionally easy to use, it carries two bicycles or e-bikes (can be extended to accommodate three bicycles). Its tilt function also allows easy access to the luggage compartment at all times.

6

6

1 Loading sill mat

The durable mat protects the loading sill and painted bumper during loading and unloading and the luggage compartment from scratches and dirt. It is attached using moveable Velcro strips on the rear fastening points in the luggage compartment and can also be laid out as an anti-slip mat in the luggage compartment.

2 Loading sill protective film

Loading sill protection is provided by a special transparent film. Precisely tailored to the vehicle, it effectively reduces damage to the painted rear bumper that can be caused while loading and unloading items such as heavy or bulky luggage.

3 Fitted luggage compartment mat

Anti-slip, water-resistant, durable mat for protecting the luggage compartment from dirt and moisture. In black and with an X3 stainless steel inlay for a perfect match with the interior.

4 Luggage compartment floor net

With the luggage compartment floor net, loose cargo and smaller objects can be quickly and safely secured against slipping in the luggage compartment. The black netting is simply attached to the luggage compartment's built-in fastening points, making it always ready for use in the vehicle.

1

2

3

4

5 Folding box

The folding box, with its load capacity of up to 20kg, can be used to store smaller items or as a shopping crate. It can be effortlessly folded and unfolded thanks to Velcro strips, is slip-resistant and easily stored to save space when not in use. Available in black or black/red.

6 Protective rear cover

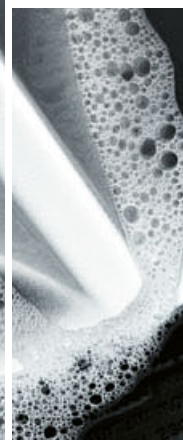

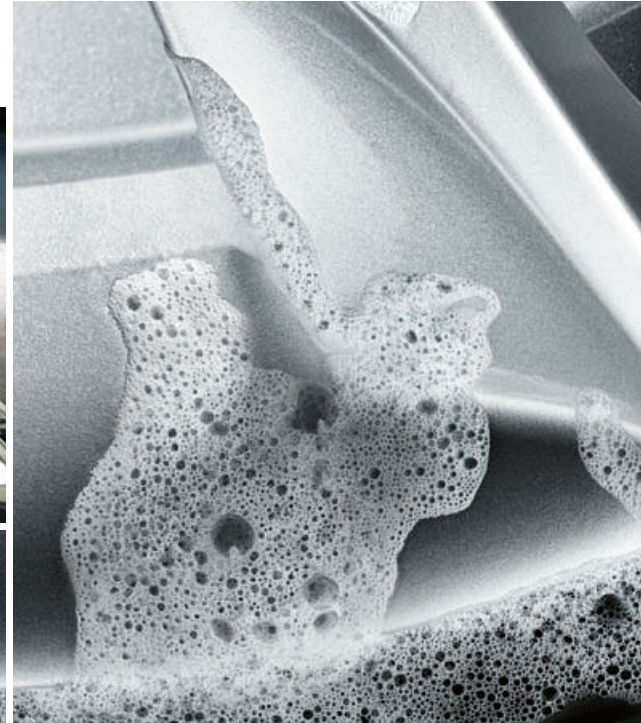

The protective rear cover, depending on version, protects either the entire rear seat bank the right half from dirt and moisture. This makes it possible to carry pets or luggage at the same time as rear passengers. The belt and belt locks remain accessible for the use of a dog safety harness.

5

6

SUPERIOR CARE FOR EVERY SURFACE.

Original Care Products from BMW ensure that high-quality BMW paint finishes can withstand everyday adverse influences and fine surfaces such as leather and wood retain their natural appeal. This comprehensive premium care range is specially adapted to the different materials of your vehicle – for gentle, effective cleaning and protection.

Based on natural essential oils, BMW Natural Air provides a fresh atmosphere inside your vehicle. The holder is quick and easy to attach and colour-matched to the interior. The fragrance sticks are fluid-free and interchangeable and there is a choice of six aromas – for example, Energizing Tonic and Vitalizing Woods – each manually adjustable for intensity.

MORE SERVICE FOR LONGER-LASTING DRIVING PLEASURE WITH YOUR BMW.

The specialists at your authorised BMW Service Partner offer true peace of mind when it comes to servicing and repair. Not only are they highly qualified, but they also work with state-of-the-art diagnostic equipment and repair technologies. This means that your vehicle emerges from its service technically and visually as new. Thanks to BMW Service Inclusive, you only need to think about it once. After that, all included service and maintenance is covered by a one-time payment. That means carefree driving pleasure for you.
