Selected BMW M Performance Parts can also be experienced in sight and sound – simply download the BMW brochure app for your device.

Expected to be available from the fourth quarter of 2016. Internet use, depending on your mobile contract, can incur costs.

MOTORSPORT STARTS WITH M.

High sporting standards have been in the blueprint of every BMW since the inception of the brand. Although when BMW Motorsport GmbH was founded in 1972, with its uncompromising focus on racing, a whole new set of forces were unleashed. And there have been many great victories – each one taking a unique set of skills from strength to strength.

The winning streak started with the BMW 3.0 CSL, developed in collaboration with Alpina. With six European championship titles, it was the most successful touring car of the 70s. This was followed by the BMW M1, the first BMW to feature the now legendary M in its name.

From 1980, BMW Motorsport GmbH started to make its mark on Formula 1 with its BMW turbo engines. And, in 1983, the first world title with a turbocharged engine was won by Nelson Piquet in his Brabham BMW.

In touring car racing, meanwhile, it was the BMW M3 that made a name for itself. Indeed, E30 models remain, to this day, the most successful touring cars in the world. Since 2015, the BMW M4 DTM has represented the three colours of BMW M in the German Touring Car Masters.

BMW stands for Sheer Driving Pleasure. But best of all, it stands for your own individual form of driving pleasure. Discover a world of diversity at next100.bmw

1972 BMW Motorsport GmbH is founded. 1973 Hans-Joachim Stuck and Chris Amon take the Touring Car grand prize at the Nürburgring in the BMW 3.0 CSL.

1978 Launch of the BMW M1, the first independent model from BMW Motorsport GmbH.

1984 Volker Strycek secures the first DTM victory for BMW with the BMW 635 CSI.

1989 Roberto Ravaglia becomes Touring Car world champion in the BMW M3.

2004/2005 BMW triumphs at the 24 Hours Nürburgring in two consecutive years with a double victory in the BMW M3 GTR.

2012 Return to the DTM with a series of wins for the legendary BMW M3 DTM. No less than a title hat trick from the start: driver, manufacturer and team.

The BMW M4 DTM in the 2016 DTM season

FOR MASTERFUL PERFORMANCE: BMW M CARBON.

High performance is, naturally, a prerequisite for speed. But to win races, you need perfect control over that performance. And because the engines in BMW M models are so highly developed in terms of performance, control of driving dynamics is the best way to secure those last tenths of a second.

BMW is particularly well versed in the wonders of carbon. This material can be very precisely modeled, it's durable, robust and extremely light. And whether it's used in the carbon ceramic brake system or as the basis for aerodynamics features or other attachments, the long-standing know-how of the BMW brand when it comes to processing and production is a surefire guarantee of a perfect driving experience in racing conditions.

YOUR PLACE IN THE DRIVER STANDINGS.

Whoever takes a seat in a BMW M model instantly feels the stirring sensation of being in pole position. The rush of adrenaline, the tingling in the feet – the signs of ultimate driving pleasure to come.

With an individual choice from BMW M Performance Parts, specially designed to meet the demanding standards set by BMW M models, you can even further enhance the sensory experience – in terms of look, feel and acoustics.

Few things in this world can make a BMW M model even better. Which is why the materials and features we offer have all been uncompromisingly tested and scrutinised. That means you can be absolutely sure that all BMW M Performance Parts can withstand the highest dynamic forces that inevitably arise when an extremely sporty driver takes an extremely sporty vehicle to the limits in competition conditions.

FOR ALL WITH M.

Many BMW M Performance Parts fit every BMW M model perfectly. Choose your desired base equipment from this overview and then fine-tune your vehicle with features from the specific BMW M model pages.

1 Black front grille

The striking grille struts and high-gloss black framing radiate power and resolute purpose. A clear sign of individuality.

Lacquered carbon trim ensures a look of uniquely sporty sophistication. Available without race display.

2 Alcantara steering wheel II with carbon trim and race display

The steering wheel cover in high-quality Alcantara provides outstanding grip while the race display, featuring the latest OLED technology and a two-colour gearshift display, offers authentic motorsport feel every day. At the touch of a button, you can call up either Race, Sport or EfficientDynamics mode. A stopwatch (with a 1/100-second display in Race mode) and a G meter for lateral and longitudinal acceleration present current motorsport-specific data. It is also possible to store up to 50 lap times and maximum values for speed and lateral/longitudinal acceleration.

3 Carbon wing mirror caps

Meticulously crafted by hand in 100% carbon and with a dynamic, sporty and high-quality design that makes an instantly clear statement: individuality is top priority.

4 Suspension (height-adjustable, can be lowered by up to 20mm)

A ground-hugging stance means even more striking dynamic presence – and all M Performance exterior parts look even more effective when a vehicle is equipped with the Sport suspension. But it's not just about amazing visual tuning, this set up also ensures better stability, better cornering dynamics and better safety – and Sheer Driving Pleasure.

5 Pro gear knob

The ultimate motor sport touch for the centre console. With an illuminated gear graphic, a pleasantly grippy feel, side inlays in the BMW M colours and an Alcantara gaiter. An entirely new gear-shifting experience. Expected to be available from July 2016.

6 Key case

An impressive combination of carbon and Alcantara. The key is securely connected to the case by means of a hexagon socket screw in BMW M Blue. Timeless elegance, technical sophistication – and a small but convincing motorsport statement.

7 Drive Analyser

Comprising an on-board diagnostics stick and a smartphone app (iOS and Android). A wealth of information, including engine data, maximum values, throttle and brake pedal use and lateral acceleration, can be professionally recorded and analysed.

8 Stainless steel pedal covers

Thanks to the asymmetrical design of their rubber treads, the pedal covers in solid stainless steel give the footwell distinctively dynamic, high-tech character. The perfect complement to other BMW M Performance products.

8 Floor mats

For an individually sporty note in the footwell and finished to perfection. With grey design lines and interwoven BMW M Performance lettering.

9 Track Fix for GoPro cameras

This provides a secure and stable base for professional-quality outdoor shooting on the racetrack. The exterior holder attaches to one of the car's tow hook apertures and the camera can be controlled by an app.

BMW M2 COUPÉ.

MAXIMUM EFFECT FOR A COMPACT POWERHOUSE.

Carbon sill attachments

Impressively accentuate the exclusively sporty appearance of the vehicle. They also impress with their low weight, exceptional stability and perfectly fitting shape.

Carbon front attachment, left/right

Hand-made, uncompromisingly high quality and aerodynamically adapted to your BMW.

Motorsport stripes

The front, rear and side stripes in classic BMW M colours convey uncompromising motorsport character at the very first look. The quality of the transfers has been stringently climate-tested and their geometry perfectly matches the form of the vehicle.

Carbon interior kit

A combination of carbon and Alcantara guarantees an exclusive motorsport look and feel. The kit comprises trim for the DCT gear lever, the centre console and the handbrake handle. A perfect way to enhance the standard equipment.

Exhaust system

A symphony for the street: the exhaust system allows you to select either an intensified six-cylinder note or the ultimate motorsport sound.

Carbon rear diffuser

100% hand-crafted carbon. 100% motorsport character. 100% exhilaration. The high-tech rear diffuser makes for an even more sporty appearance – and impressively accentuates the vehicle's masculine profile.

- 1 Carbon tailpipe trim
- 2 Pro Alcantara steering wheel with carbon trim
- 3 Carbon side skirt attachment
- 4 Carbon interior kit
- 5 Carbon front attachment, left, motorsport stripes

More parts descriptions can be found on pages 8/9.

Carbon tailpipe trim

For an even more commanding rear profile. With BMW M logo.

Pro Alcantara steering wheel with carbon trim

For unmistakable motorsport feel in the cockpit. This inspires with its striking form and pronounced grip area in Alcantara – for optimal hold in all temperatures. With motorsport-style detailing in light blue leather.

BMW M3.

SELECT YOUR SPORTING PROFILE.

Side motorsport stripes

With the three BMW M colours. The clear reference to motor racing underscores the sporty design of the vehicle and ensures even more individual character.

Sidewall bars

In high-gloss black and decisively underscoring the bold character of the vehicle's side profile. Sporty. Sophisticated. And exceptionally effective.

Carbon door handle trim

Perfectly rounding off the uniquely sporty BMW M Performance picture inside the car. With exceptional depth thanks to its high-gloss polish.

Carbon handbrake grip with Alcantara gaiter

Featuring lacquered carbon and upholstered in high-quality Alcantara. The gaiter is refined with stitching in the BMW M colours. This emphasises the motorsport feel in the interior and perfectly complements other BMW M Performance products.

Titanium exhaust system

Choose from three modes using the engine dynamics button: Sport and Sport+ generate an impressively forceful sound while Efficient delivers a sporting intensity suitable for everyday driving. Optimised exhaust routing accentuates the classic six-cylinder biturbo sound and the silencer is made in race-grade titanium. For an individual highlight, the sophisticated tailpipe trim is available in either titanium or carbon. With BMW M logo.

- 1 Side motorsport stripes, sidewall bars, titanium exhaust system, carbon wing mirror caps
- 2 Titanium exhaust system
- 3 Carbon gear lever trim, carbon handbrake grip with Alcantara gaiter, Alcantara steering wheel II with carbon trim.

More parts descriptions can be found on pages 8/9.

BMW M4.

STAR PERFORMANCE – COUPÉ AND CONVERTIBLE.

Carbon rear diffuser

100% hand-crafted carbon. 100% motorsport character. 100% exhilaration. The high-tech rear diffuser makes for an even more sporty appearance – and impressively accentuates the vehicle's masculine profile.

Carbon handbrake grip with Alcantara gaiter

Featuring lacquered carbon and upholstered in high-quality Alcantara. The gaiter is refined with stitching in the BMW M colours. This emphasises the motorsport feel in the interior and perfectly complements other BMW M Performance products.

Alcantara armrest

Completes the exclusive motorsport look in the cockpit. In a premium material mix of Alcantara and high-gloss carbon. Adjustable for length and with eye-catching stitching in the BMW M colours.

Carbon rear spoiler

Greatly enhances the high-quality, sporty appearance of the vehicle. Along with other components, it also optimises the aerodynamic values for even more dynamic handling.

Side motorsport stripes

With the three BMW M colours. The clear reference to motor racing underscores the sporty design of the vehicle and ensures even more individual character.

Side skirts

In matt black or body colour, these significantly reinforce the sporty character of the vehicle. Along with other BMW M Performance aerodynamics components, they also optimise the aerodynamic values.

Sidewall bars

In high-gloss black and decisively underscoring the bold character of the vehicle's side profile. Sporty. Sophisticated. And exceptionally effective.

Carbon front attachment, left/right*

In uncompromising hand-made quality and aerodynamically adapted to your BMW.

- 1 Carbon rear diffuser
- 2 Carbon handbrake grip with Alcantara gaiter, Alcantara armrest, gear lever trim
- 3 Carbon rear spoiler
- 4 Side motorsport stripes, side skirts, high-gloss black sidewall bars, carbon front attachment, black front grille

More parts descriptions can be found on pages 8/9.

* Optional finishing strip available in carbon or PU, primed and paintable in body colour.

BMW M4 COUPÉ.

UPSCALE THE EXCLUSIVITY.

Side skirt transfers

The high-quality transfers, in black and with BMW M Performance lettering and the three-colour BMW M logo, further enhance the dynamic character of the BMW M Performance side skirts. They also make the profile appear even more individual.

Carbon rear spoiler (flow-through)

A distinctive motorsport touch for the rear of the vehicle. Thanks to optimised aerodynamics, it also noticeably enhances sporty handling. Dynamism in its most individual form.

Carbon front attachment, left/right*

In uncompromising hand-made quality and aerodynamically adapted to your BMW.

Pro steering wheel in Alcantara with carbon trim

For unmistakable racing feel in the cockpit. This inspires with its striking form and pronounced grip area in Alcantara – for optimal hold in all temperatures. With motorsport-style detailing in light blue leather.

* Optional finishing strip available in carbon or PU, primed and paintable in body colour.

- 1 Side skirt transfers, side motorsport stripes
- 2 Carbon rear spoiler (through-flow)
- 3 Carbon front attachment, front grille
- 4 Carbon rear spoiler (through-flow), side skirt transfers

More parts descriptions can be found on pages 8/9.

Carbon rear spoiler

Greatly enhances the high-quality, sporty appearance of the vehicle. Along with other components, it also optimises the aerodynamic values for even more dynamic handling.

Carbon rear diffuser

100% hand-crafted carbon. 100% motorsport character. 100% exhilaration. The high-tech rear diffuser makes for an even more sporty appearance – and impressively accentuates the vehicle's masculine profile.

Side skirt transfers

The high-quality transfers, in black and with BMW M Performance lettering and the BMW M logo, further enhance the dynamic character of the side skirts. They also make the profile look even more individual.

Front and rear stripes

In the classic BMW M colours, for uncompromising motorsport character at the very first look. The quality of the transfers has been stringently climate-tested and their geometry perfectly matches the form of the vehicle.

Exhaust system

A collaborative development between BMW M GmbH and Akrapovič, a leading manufacturer of premium titanium exhaust systems. With a layout specifically engineered for BMW M models, this delivers incomparably deep and resonant sound

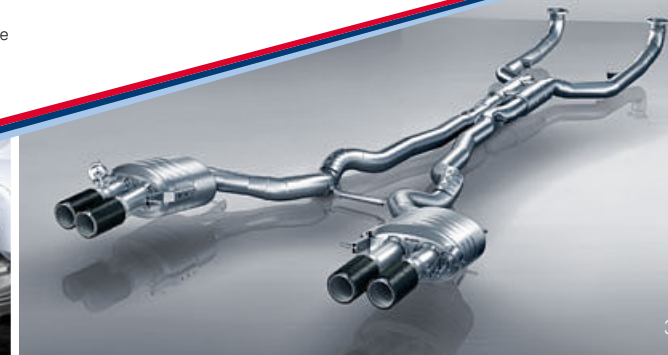

character. It also offers outstanding temperature and corrosion resistance plus a reduction in weight of 10.4kg compared with the standard equipment.

Carbon or titanium tailpipe trim

A bold and assertive extra touch for the rear profile. With BMW M logo.

- 1 Carbon rear spoiler, side skirt transfers, front and rear stripes
- 2 Carbon rear diffuser, carbon tailpipe trim
- 3 Carbon tailpipe trim, exhaust system
- 4 Carbon wing mirror caps, black front grille

More parts descriptions can be found on pages 8/9.

BMW M5.

SUPREMACY – AND THEN SOME.

BMW M6.

POWER PLAY FOR THE COUPÉ, CONVERTIBLE AND GRAN COUPÉ.

Front and rear stripes

In the classic BMW M colours, for uncompromising motorsport character at the very first look. The quality of the transfers has been stringently climate-tested and their geometry perfectly matches the form of the vehicle.

Carbon rear diffuser

100% hand-crafted carbon. 100% motorsport character. 100% exhilaration. The high-tech rear diffuser makes for an even more sporty appearance – and impressively accentuates the vehicle's masculine profile.

Carbon tailpipe trim

Adds a commanding touch to the rear of the vehicle. With BMW M logo.

Exhaust system

A collaborative development between BMW M GmbH and Akrapovič, a leading manufacturer of premium titanium exhaust systems. With a layout specifically engineered for BMW M models, this delivers incomparably deep and resonant sound character. It also offers outstanding temperature and corrosion resistance plus a reduction in weight of 10.4kg compared with the standard equipment.

Carbon rear spoiler

Greatly enhances the high-quality, sporty appearance of the vehicle. Along with other components, it also optimises the aerodynamic values for even more dynamic handling.

- 1 Black front grille, carbon wing mirror caps, front stripes
- 2 Carbon rear spoiler
- 3 Carbon tailpipe trim
- 4 Rear stripes, carbon rear diffuser, carbon tailpipe trim, exhaust system, carbon rear spoiler

More parts descriptions can be found on pages 8/9.

BMW X5 M.

ASSERT YOUR SPORTING AUTHORITY.

Carbon interior trim

For authentic motorsport feel in the cockpit and with a fascinating depth thanks to several layers of lacquer and a high-gloss polish.

Air Breather in high-gloss black

Decisively accentuates the bold character of the vehicle's side profile. Sporty. Sophisticated. And exceptionally effective.

Motorsport stripes

The front, rear and side stripes in classic BMW M colours convey uncompromising motorsport character at the very first look. The quality of the transfers has been stringently climate-tested and their geometry perfectly matches the form of the vehicle.

- 1 Alcantara steering wheel II with carbon trim, carbon interior trim, stainless steel pedal covers
- 2 High-gloss black Air Breather, black front grille, motorsport stripes

More parts descriptions can be found on pages 8/9.

- 1 Air Breather in high-gloss black, motorsport stripes, rear fins
- 2 Carbon centre console trim

More parts descriptions can be found on pages 8/9.

BMW X6 M.

A NATURAL LEADER.

Air Breather in high-gloss black

Decisively accentuates the bold character of the vehicle's side profile. Sporty. Sophisticated. And exceptionally effective.

Motorsport stripes

The front, rear and side stripes in classic BMW M colours convey uncompromising motorsport character at the very first look. The quality of the transfers has been stringently climate-tested and their geometry perfectly matches the form of the vehicle.

Rear fins

Made in particularly durable polyurethane and featuring a premium, sporty look that gives the rear of the vehicle even more dynamic character. They also noticeably optimise high-speed handling.

Carbon centre console trim

Featuring several layers of lacquered carbon for unmistakable motorsport feel in the interior.
